SUNY Empire State College is committed to making a difference in the habits of students and employees by incorporating environmental sustainability into academics and by demonstrating sustainable practices through college operations.

**The goals of the college's sustainability plan are to:**

- Reduce the carbon footprint of the college, reduce waste, and incorporate environmentally responsible behavior into the workplace culture of every center, office and program
- Increase academic offerings related to environmental sustainability.
- Be an example of an environmentally responsible institution in the communities in which we serve and within higher education.

For more information about sustainability at the college visit [www.esc.edu/sustainability](http://www.esc.edu/sustainability)

SUNY Empire State College offers individually designed degree plans that can integrate sustainability into the student's concentration.

**Some current learning opportunities include:**

- An undergraduate certificate in Business and Environmental Sustainability.
- Environmental residencies that offer courses in arts, American history, business, cultural studies, humanities, natural sciences.
- Undergraduate concentrations in environmental science and environmental studies.
- Internship opportunities in sustainability.
